WANT TO RENT A ROOM?

The response to the plea of the Greater New Castle Association for householders to rent spare rooms at convention times, has been less enthusiastic than was hoped. Many householders have answered the query sent out by more coal than in 1938. the GNCA but there are more needed.

For example. On October 27-28-29, the Pennsylvania State Grange will hold its convention here. The delegates and guests need rooms in which to sleep. The hotels will be filled to the bursting point and private homes must be used if the visitors are to be accommodated.

Conventions are a fine thing for any city. It brings of paper francs in circulation. visitors to the city, visitors spend money, and we all profit.

SURGERY AGAINST CRIME

A decade ago Dr. Frank Chmelik, chief physician alone for France but for the alone. He believed that criminals with physical de- likely to contribute to recovery children I have a problem child of formities setting them apart from normal persons might and stability be straightened out if their defects were corrected. So he called in Dr. John A. Pick of Chicago, a plastic surgeon, politician. and told him to begin work.

Last week, before the United States chapter of the In- ist party. He bases this unorthoternational College of Surgeons, Dr. Pick reported on the dox view on his own success in results of the 728 operations he has performed since 1937. his plan His conclusions might be summed up in a sentence. Dr. Chmelik was right. Or, as Dr. Pick put it:

Dr. Pick cited figures in support of this statement Statistics show, he said, that as a rule 17 per cent of convicts released on parole are returned to prison for one reason or another. But of 376 convicts released after undergoing pastic surgery, only a shade more than one per cent with Soviet Russia. But he is also have been returned.

But he added that they are "few indeed."

Is it worth while to take that risk? It appears that there are 60 former convicts who have been rehabilitated, and are no longer a charge of the state of Illinois, because of Dr. Pick's skill. That alone is a weighty item on the credit side of the ledger.

FOR A SMALLER BREAD LOAF

Reducing the size of bakers' loaves has been sug- Time was when we'd go out gested in the past as a means of conserving wheat. It is natural that Charles Luckman, chairman of the Citizens As I'd regard the menu card Food Committee, should propose it as another of the Government-backed measures to avoid waste of foods.

It is undoubtedly true that many families find the loves of bread usually on sale too large for their ordinary uses. Part of each loaf is consequently thrown out because of staleness. If half-loaves or others of smaller size My Nellie, as the waiter stood were available, householders could buy only what they could use and thus avoid considerable waste of bread.

When the small-loaf plan was brought up before, it was explained on behalf of bakers that they have a large investment in pans of fixed size and any change in the weight of loaves would represent a major burden.

If the change-over were only for a temporary period this might be a factor of importance. But many families For forty years my Nellie sat, would prefer the smaller loaves of bread, not only in times of wheat scarcity, but permanently. If the bakers The while I read with downcast could be convinced of this, perhaps they would be more amenable to the suggestion now made by Mr. Luckman.

Remember way back when the college boys were the And finally my choice would be only members of the male sex who went downtown bareheaded?

If the sports editor was to comment on Mr. Wallace's present political activities he would say that Henry was in the midst of a severe batting slump.

Dollars Immediate Need Of France

PARIS, Oct. 17.-The immediate and desperate need of France is for dollars to buy wheat and coal so that the level of industry will not drop disastrously. Once the immediate needs are met, however, the long-term problem of France becomes political rather than economic. I think it would make a very interesting study, and why don't you folks do a little research in your own towns?

I get quite a few letters in which people complain that they don't snow what to do with their spare but has historical values as well.

For instance, I just looked at the Berwick, Pa., Enterprise and saw a story about a nearby vil-

I am going to be in Berwick later this week to make a speech before the Kiwanis Club, and I am certainly going to find out whatever made anybody name a place Wap-

It certainly isn't a very pretty name, but there must be a reason

I do hope that at that meeting their way there will be some Wapwallopenabout their community history. Probably to them Wapwallopen is in these famous words: a sweet name-because to them Wapwallopen is home.

MEDES AND PERSIANS Several months ago the newspapers were printing news about an experiment in price reduction called the "Newburyport Plan." Merchants of that city undertook to stimulate trade by a horizontal percentage reduction of prices on the commodities they sold. Other communities in various parts of the country followed suit and it Marshall was speaking from perlooked for a time as if the plan might effect a sort of commercial

Some dealers announce nets are preserved, humanity will just as high, with some a little be transformed into a political seasonable cut price sales, but the army marching to its own destrucprocedure is one of long tradi- tion ion. Price levels in general have not been changed to any extent by the plan which was hailed as a

panacea for high living costs. Until Stocks Are Exhausted

A "Newburyport Plan" might reasonably succeed for a short period—until the retailer had exausted his stocks on hand. Unwere reduced correspondingly with retail prices, however, the retailer restocking his shelves would be forced to take his choice between a return to regular prices or takng a loss. As merchants are not in business for the purpose of losing money, the "Newburyport Plan" and its imitations naturally faded out of the picture.

President Truman expresses a pious hope that neither coal nor steel prices may rise as a result of the new mine contract obtained by John L. Lewis. Such a rise, he concedes, would have a bad effect on the country. Having been engaged in the retail business himself, Mr. Truman undoubtedly recognizes that prices have a direct relation to costs-that failure to increase prices sufficiently to cover increased costs spells business failure.

Deserted At The Altar?

(By Holmes Alexander)

WASHINGTON, D. C., Oct. 17 .- Henry Wallace's efforts to force he circumstances of a shotgun wedding between the Democratic party and the commie-ridden left are now becoming indecently clear-much to the dismay of persons who had hoped to see the party of Jefferson

and Wilson turn respectable aagin. Henry's earlier talk about forming a third ticket was once the fond if desperate hope of this moderate group. Here, it seemed, was good way to be rid of Henry and there was even a chance that Mr. Truman would make it official by reading Henry out of the party.

Only Issuing Threat, It Seems But it now appears that Wallace was only issuing a threat, not a promise, of going his own way. His recent 11-day roadshow in New England feathred some interpretive dancing in which every little wiggle had a meaning all its own. According to Robert W. Kenny, Wallace's left bower of strength in California, Henry now has a strategy time. So here is an idea that not worked out. It is to enter some of the Democratic primaries, make a only has possibilities for good fun show of strength and then twist the arm of Democratic policy makers until they holler "Uncle Joe".

This, to keep the metaphores well mixed as befits the subject, suggests that somewhere along the primrose path Henry will have presided over a seduction scene in which the radical element has its will of the Democratic body politic. Shotgun rites will then be in order as will be a resumption of the old "clear it with Sidney" technique between party leaders and the commies in the woodpile.

Obliged To Go Along

Such is the eagerness of Congressional nominees to use the party label and such is the label-loyalty of old-time Democrats that most of them would feel obliged to "go along" no matter how much they despise the fellow-travelers. As lip-service to this herding instinct the Administration leaders can be expected to point out that they want no part of the radical support but are helpless to prevent its coming

This last, however, is not exactly true. There is a way for a ians present, who may tell me all President-candidate to rebuff unwelcomed support. Woodrow Wilson did it in 1916 when he publicly told off a pro-German rabble rouser

"I would feel deeply mortified to have you or anybody like you vote for me. Since you have access to many disloyal Americans and I haven't, I will ask you to convey this message to them.

Here Is Ready-Made ReBuff

Now here is a ready-made rebuff which could be easily adapted to present day use. I propose that President Truman or National Democratic Chairman MacGrath send it verbatim to Henry Wallace. Not only would it stop Henry in his tracks but it would throw his followers into such a skelter that they would have to shinny over the fence and leave the main field to the two major parties.

That such an ouster of the radical element would automatically ruin Democratic chances is far from certain. My guess is that there would be two-way traffic over the party fence. For every Wallacite who left the reservation, there would be at least one refugee climbing back into the fold. There still remain many who took a walk a la haps the Nescopeck youngsters get Al Smith and who yearn to come home. Win or lose in 1948, the tired of it every now and then Democratic party, by purging itself of fellow-travelers, would achieve consolidation for the first time since the early 1930's.

Not Likely To Show Spunk

There is, sad to relate, very little hope that either Mr. Truman or Senator MacGrath will summon the spunk to perform this service to their party. In practical politics it is considered wiser to take the bird in hand, regardless of its plumage. But it is far from impossible that the Woodrow Wilson message will reach Henry Wallace from less official places than the White House or the Democratic headquarters. Throughout the nation there are many who felt that Mr. Roosevelt's passing signalized a chance for the Democratic party to return to its traditional Americanism. They looked to Mr. Truman to perform this turn-about and they are going to be very disappointed if he fails them. So disappointed, in fact, that Mr. Truman, nominally the

FBI TO CONDUCT FIREARMS SCHOOL FOR POLICEMEN

Chief of Police Robert D. Hanna announced that a three day Firearms school will be held for the members of his department at the Lawrence County Sportsman's range on October 20, 21 and 22, 1947. The school will have a morning and afternoon session on each of the three days so that all members of the department will have an opportunity to participate. The Federal Bureau of Investigation is cooperating with Chief Hanna in conducting the school and will provide the instructors.

F. A. Flecher, special agent in charge of the F. B. I. office in Pittsburgh, has indicated that Special Agent C. F. Watson will be in charge of the instruction. Special Agent Watson was for several years an instructor at the F. B. I Academy at Quantico, Virginia and is considered one of the Bureau's outstanding firearms instructors. Mr. Watson will be assisted by Special Agents William Rowe and Bernard Cashdollar.

The men will be afforded extensive training in the use of the service revolver and will also be trained in the use of the rifle, shot gun, machine gun and gas equipment.

Mayor John F. Haven has heartily endorsed this training for the Police department and the City will provide the necessary ammunition for the course of instruc-

Suggest Seminary Be Relocated At **New Wilmington**

College Town Rotarians Push Suggestion Of Meving U. P. Seminary; Other Town Notes

(Special To The News) NEW WILMINGTON, Oct. 17 .-A suggestion that the Pittsburgh-Xenia Seminiary of the United Presbyterian church be moved to New Wilmington made at the recent synod meeting at Sharon, has struck fire with the Rotary club and a committee has been appointed to further the plan.

A committee has been appointed consisting of Atty. Thomas Mansell, Norman Igo, Dr. W. J. Harper McKnight, Dr. R. F. Galbreath and Dr. J. W. Creighton.

The suggestion at the Synod was made by Dr. Homer Henderson of Grove City, and reports are that the suggestion has met with favorable reaction by church leaders. Cal Tinney, well known radio performer has been secured as the speaker for the Buckwheat rodeo, November 13.

Miss Gertrude Chapin will be host to Loyal Daughters Missionary society of Neshannock Presbyterian church Friday evening. Mrs. Arthur Garrett will have charge of devotionals and Miss Dorothy Kirkbride will discuss the topic "India".

Russell Sewall, George Bleasby, Clyde Lamb, Robert Kelley and Robert Eagleson have been named to the nominating committee of the Kiwanis club. New officers are to be named November 3.

Rev. and Mrs. George Meyers attended a joint district conference of the Brookville and Grove City districts of the Methodist church at Trinity Methodist church at Oil City Friday.

Seniors, juniors and sophomores of New Wilmington High school have nominated three candidates from their respective classes for the honor of reigning as queen at a sweater hop to be held at the community house November 7.

Seniors have named Patricia McClure, Alice Frew and Gloria Phillips. Juniors have elected Joan Borowicz, Joan Thomas and Janet Hawthorne. Sophomores have Lorraine McGinnis, Shirley Brush and Marilyn Elder.

September Was **Nearly Normal**

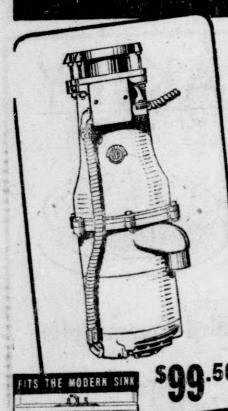

Temperature During Month Was Only Four-Tenths Of Degree Off: Rainfall Was Less

September weather was almost normal, the statistics compiled by B. F. Johnson, U. S. weather observer, reveal. The temperature was only four-tenths of a degree above the normal for the month, but there was a deficiency of exactly one inch in the rainfall.

The mean maximum temperature was 77.4 degrees, the mean minimum was 51.9 degrees, and the mean or average 64.7 degrees. The highest temperature was 89 degrees on September 11, while the minimum was 30 degrees on the 27th. The total precipitation for the month was 2.01 inches, the normal for September being 3.01 inches. There were eight days during the month with .01 inches or more of precipitation, the greatest amount in any one day. 49 inches, occurring on September 21. Days clear were 18, partly cloudy were 9, and

cloudy 3. Last year the precipitation was 1.85 inches below the normal amount, while the temperature was just one-tenth of a degree below normal.

Press agents have been ballyhooing cinema folk ever since Tom Edison brainstormed the magic lantern. That's why today a mere movie star is a world celebrity awed by kings and presidents and even dictators.

Tub Thumpers

These flacks-as they were dubbed decades ago by Variety, the show-world's Bible-stay awake nights dreaming up ways and means to thump the tubs for screen stars.

Not more than 100 per cent of everything you read or hear about Hollywood's leading citizens is the direct result of flackery. The most famous film columnists and commentators get practically all their dope straught from the nimble-witted press agents.

Publicity stunts which first worked back in the dim days of the galloping tintype are still in use and always are good for a couple of lines in any newspaper. Phony Romances

Phony romances are always worth a paragraph: "Prunella Lagaga, the blonde actress, and Rodney Smythe, the handsome actor, have discovered each other. Or Rodney Smythe and Prunella Lagaga have gone pfffft!" Phony divorces and reconcilia-

Why We Can Offer You **Both Style and Economy**

Style, quality and economy is a rare combination. They don't usually go together. So when we tell you that at Richman Brothers they do, we feel we owe you an explanation. Here it is.

We make our own clothes and sell them in our own stores. Thus we save a lot of expense, eliminate one profit, and pass the savings on to you in the form of better materials, finer workmanship and smarter styles, at very much lower prices.

Our greater values bring more people to our stores, which enables us to buy more, sell more, and give you still more for your money. This is good for us, good for you, good for the country.

Finally, we have the will as well as what it takes to give you value. Come in and see for yourself.

Insanity Plea For Slayer Of Four On Highway In Texas

Prominent San Antonio Surgeon Remembers Nothing Of Shooting Four To Death

LA GRANGE, Tex., Oct. 17. (INS)-Defense attorneys were prepared today to plead insanity for a prominent San Antonio, Tex., surgeon on trial for the slayings of four members of the Willard H. York family last May 25.

The trial continued today after the court heard the testimony of the sole survivor of the family, 13-year-old Ann York.

The girl testified yesterday in the murder trial of Dr. Lloyd I. Ross that her mother, father, brother and grandmother were slain on a country road near New Braun-

What the WASTEMASTER Will Do for the Housewife

The housewife wants a disposal unit. First, it must do the things she should expect it to do, and what are these? It must be efficient, sanitary, labor saving, convenient, economical, attractive and have ease of operation. The Wastemaster has all these seven points. Anything in the way of food wastes can be disposed of in the Wastemaster, including bones, fruit pits, meat wrappings, corn cobs, and the like. However, it is not designed to take such things as broken glass or china, bottle caps, or anything of a metallic nature. It is self-cleaning, this being due to the rotary scouring action of its operation. It saves many footsteps and eliminates the holding of food waste in the kitchen until disposed of into the old fashioned garbage can. It is attractive and fits very well into the present-day, modern kitchen; is extremely easy to operate and the cost of operation is less than $\frac{1}{3}$ of a cent a day.

Claims Innocence In Charges That He Murdered Wife

ST. PETERSBURG, Fla., Oct. 17 -(INS)-John G. Westly, 63-yearold St. Petersburg poultryman, maintained his innocence today regarding charges that he murdered his wife, chopped up her body, and disposed of it by sections in Tampa Bay.

A warrant charging Westly with first degree murder was served on the chicken farmer late yesterday by Magistrate Joe E. Carpenter. Police said Westly's wife, Yvonne, 43, was "positively identified" by FBI fingerprint experts as victim of the Gandy bridge

'butcher" slaying. The prints were taken from the
